

Macaroonies – How to Setup Your Smart Aqua System

Step 1 – Take System Out of Bucket

Step 2 – Attach System to Base

Step 3 – Attach Water Pump and Connect Lid

Instructions

A. Take off the blue tape (x3) from the side of the bucket. Take off the lid.

B. Remove the system and water pump (box) from the bucket.

C. Feed the black hose through the base.

D. Line up the green dots and attach the system to the base.

E. Take off the blue tape from the water pump connector and insert it into the pump.

F. Connect the black hose to the water pump connector.

G. Undo the twist tie from the power plug. Then, feed the power plug through the hole in the lid.

H. Put the lid on the bucket.

I. Take off the blue tape from the cups.
